

Sensor & Detector Filter

Description

We have developed technologies to manufacture the Sensor and detector filter with higher efficiency which can be used for online detecting instrument of infrared optical type.

Applications

- Water Quality Analysis
- Toxic gas detection
- Ranging Laser
- Atmospheric monitoring
- Gas detection filter

Benefits

- High transmission
- sharp slope
- High contrast

Products

- Dimension: minimum to 2mm -55mm
- Dimension tolerance: $\pm 0.01\text{mm}$
- Surface quality: 80-50
